PROFILE

Software engineer with 3 years of experience building web applications, REST APIs, and data workflows. Recent work includes an operations platform with role-based access, real-time dispatch, fleet records, and financial reporting. Designs responsive mobile interfaces for Android and iOS and builds desktop automation tools.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, HTML, CSS

Backend & security: Node.js, NestJS, REST APIs, JWT, role-based access control (RBAC), input validation, Socket.IO

Data & reporting: Prisma ORM, SQLite, MySQL, relational data modeling, transactions, Excel and CSV exports

Frontend & mobile: React, Next.js, React Native, Android and iOS interface design, Tailwind CSS, Bootstrap, Vite, Progressive Web Apps (PWA)

Testing & delivery: Playwright end-to-end tests, Git, GitHub, npm, Cloudflare Tunnel

PROJECT EXPERIENCE

Look Operations Platform | Full-stack web & PWA

Built trip dispatch, approvals, attendance, vehicle odometer tracking, and Excel reports with React, NestJS, Prisma, and SQLite. Implemented server-side authorization and live trip updates with Socket.IO. Verified workflows with isolated Playwright tests. Case study

Desktop Order Automation | WhatsApp & desktop

Built a workflow that prepares requests from WhatsApp, waits for approval, and automates fulfillment steps in a desktop application. Video demo

Retail Product & Inventory Management | JavaScript

Built a bilingual dashboard for product CRUD, stock tracking, search filters, charts, and CSV import/export. GitHub / Live demo

Zad Al-Qulub | Mobile

Built an independent app with the full Quran, daily adhkar, prayer times and offline adhan audio. Screenshots

Wordle-inspired Game | JavaScript

Implemented input handling, guess validation, and game state in vanilla JavaScript. GitHub / Play

TRAINING & LANGUAGES

Elzero Web School: 500+ hours of self-directed study in HTML, CSS, and JavaScript.

Arabic: Native • **English:** Technical working proficiency
